

Snow Removal Report

Ravenswood – SSA 31

Date of Event:	1/12/2015
Snowfall Total:	N/A
Type of Measurement:	N/A
Time of Measurement:	N/A
Sight of Measurement:	N/A
Measured By:	N/A
Time Crew Arrived:	10:00 pm
Time Crew Finished:	5:00 am
Route Approved By:	T.J. Hnilica
Notes:	<p>Megan asked Cleanstreet to come out to perform a special service to clean up for the three 1+ inch events that occurred last week that left the SSA messy. Megan agreed to the offer that Cleanstreet made in an email that if there was six more 2 inch occurrences after this service, SSA 31 would be billed for 50% of the per-occurrence rate for this service. Otherwise, this service would be included as a 2 inch service under the Seasonal Cap.</p> <p>Both the sidewalk crew and parking space crew arrived and left at about the same time. The sidewalk crew took longer than usual to get acclimated to their designated routes. It also took an extra hour for everyone to scrape all of the ice that had been compacted between Montrose and Berteau on Ravenswood. We also had problems with our new salters this first time out so some of the sidewalks were not complete until a crew had to return at about 12pm the next day. After a few mechanical adjustment, two ATVs and salters returned to salt the areas that were missed and plow some areas that were skipped.</p> <p>The parking space crew worked an extra 2 hours trying to plow as best as possible around the 50 or so cars that were still parked in the spaces overnight.</p> <p>Pictures can be found in the shared Google Drive folder.</p>
