Notes:	<p>During the first occurrence we pushed 4-6 inches with our ATVs and the snow continued to fall heavy, but we only measured about 1 inch on the beginning of the route after the SSA had been cleared. We mobilized again at Midnight when the snow was supposed to have stopped to push what was supposed to be another 6 inches based on the forecast, but when we arrived at about 3am, we found the forecast was drastically wrong and there was another 15+ inches on the ground and it continued snowing till 7am. The ATVs plowed as best as they could the second time out until 7am, but we had to return with heavy equipment to get the walks clear. We arrived with this equipment at 2:00 am on 2/4 and finished at 11:00 am. We came back again on 2/9 to widen and on 2/10 to scrape and salt the sidewalk on East Ravenswood between Sunnyside and Wilson because the heavy equipment could not fit through and the owner’s efforts were not sufficient.</p> <p>Pictures of our services are in the shared Google Drive Folder. Notes:	<p>The 2 trucks first arrived to plow just after 5am on 2/1. They plowed a second time just after 9am and finished at about 2pm. The snow continued to fall the rest of the day Sunday and through the night so we were required to bring in 5 total trucks in order to get the spaces cleared by 7am on Monday 2/2. 2 of the trucks plowed the route twice while the other 2 trucks plowed the route just once. The 5th truck worked to clear Ravenswood between Montrose and Berteau.</p> <p>There were a couple complaints regarding the parking space plowing so T.J. brought the Heavy Equipment to work for an hour on 2/4 on Ravenwood between Montrose and Berteau and then the plow truck came back on 2/9 to re-plow the spaces on East Ravenswood Between Sunnyside and Wilson.</p> <p>Pictures of our services are in the shared Google Drive Folder.</p> <p>This Service Fee: \$13,916.65 (Five occurrences of service at \$2,783.33)</p>
